

Our Products:

Deck Mount Skylights (FM)

Curb Mount Skylights (CM)

Custom Skylights

FM Skylight Features:

- Double pane, tempered insulated glass is energy efficient.
- Solid aluminum welded frame is durable and leak free. No wood to rot or plastic to degrade.
- Wide 4 5/8" flange and built in curb provides SIMPLE installation with no flashing required. Water channels away from skylight.
- Neutral powder coated covers are elegant and blend with most roofs.
- Condensation gutter with weep holes remove any condensate.

CM Skylight Features:

- Welded aluminum construction and tempered insulated glass with neutral covers.
- 2 sizes of covers: 1" drop and 2" drop

Custom Skylight Choices:

- Custom shapes and sizes.
- Multi-ganged
- Operable (opening)
- Choice of glass

Lifetime Warranty*!

Warranted against defects in materials and workmanship. Insulated glass units have a five year warranty against defects in the glass or the seal between the glass panes.

Simple Installation!

1. Remove shingles and cut hole.
2. Apply self adhesive roofing membrane around hole.
3. Apply sealant under flange.
4. Fasten to roof with screws.
5. Apply membrane if desired, and shingles to top and sides.
6. May add water and debris diverter above skylight if desired.

Availability:

- In-stock: Same day pick-up or ship. Choose from twelve FM (deck mount) sizes and two CM (curb mount) sizes.
- Custom: Typically 2 – 4 weeks
